Brand new name. Same great service.

RB Heating is now RB Heating ClimateCare

Dear Neighbour:

It's been over 20 years since we first opened our doors in Kemptville. Since that day, we've been committed to providing trusted, reliable home comfort service to our customers in the community and surrounding area. And as we've grown, we've never forgotten what got us here in the first place. Our commitment to providing the best customer service at a reasonable price is as important to us today as it was back in 1992.

Today, we have some exciting news to tell you. RB Heating has joined forces with a cooperative of independent contractors known as ClimateCare. This allows us to benefit from economies of scale to offer you even lower prices and more product selection. As RB Heating ClimateCare, you can still count on us for the excellent service we're known for — and now, you can count on us for lots more including bigger and better money-saving offers.

You can start taking advantage of these special offers right away. For a limited time, you can get a new, high quality air conditioning system

installed for the low price of just \$29.99/month — and don't pay for 3 months. That's significantly lower than the prices you'll find later in the season, so don't wait: this special pre-summer offer is only available until June 11, 2012.

Thank you for being loyal customers. We look forward to keeping you satisfied and your home comfortable this summer, and for many years to come. Sincerely,

P.S. Call us today for this special offer!
